Introduction

ELCOME TO 1001 Vocabulary and Spelling Questions! This book is designed to provide you with review and practice for vocabulary and spelling success. With 1001 practice questions, you can enrich your verbal abilities at your own pace, and focus on the areas where you need improvement. 1001 Vocabulary and Spelling Questions is designed for many audiences. It is for anyone who has ever taken a language arts course and needs to refresh forgotten skills. It can be used to supplement current class instruction. It can be used to boost job performance by improving your business writing abilities. Most often, this book is used by people who are studying for important academic, entrance, or certification exams. Every test from the SAT exam to the Police Sergeant test requires an excellent grasp of vocabulary skills.

1001 Vocabulary and Spelling Questions can be used by teachers and tutors who need to reinforce student skills. The book is easily adapted to fit lesson plans and for homework assignments.

If at some point you feel you need further practice or more explanation, you can find it in other LearningExpress publications. 501 Vocabulary Questions, 501 Synonym and Antonym Questions, 501 Word Analogies Questions, 501 Grammar and Writing Questions, and Vocabulary and Spelling Success in 20 Minutes *a Day, 3rd edition* all contain a wealth of information for students, test takers, professionals, and word lovers.

How to Use This Book

First, look at the table of contents to see the types of verbal topics covered in this book. The book is organized in three sections: Synonyms, Antonyms, Verbal Classification, and Analogies; Vocabulary in Context; and Spelling. This structure divides common language arts strands into compact units so that you can work on each concept and gain mastery. You may want to answer the questions in sequence, but if you are using this book to supplement topics you are currently learning, you may want to jump around from topic to topic according to your syllabus.

As you answer the vocabulary and spelling questions in this book, you will undoubtedly want to

check your answers using the answer and explanation section at the end of the book. The purpose of "drill and skill" practice is to help you become proficient with language skills. Like an athlete preparing for the next season or a musician warming up for a concert, you can become an expert with practice. If, after answering all the questions in a section, you feel you need more practice, reread the questions and try your hand at responding one more time. Repetition is often the key to success. Studies show that most repetitive tasks become part of a person's inventory of skills over time. A good idea is to write your answers on a separate sheet of paper so that you can go through the chapters over and over, as needed, to reinforce and develop your word power.

Certain tests that you will take for academic advancement, job promotions, or civil service/military placement require you to have a working knowledge of vocabulary and spelling skills. This chart lists some exams that test your verbal skills and word knowledge.

Tests that Measure Word Knowledge

You should have a dictionary or thesaurus handy as you work through the questions in each section. It is always a good idea to make this a habit when doing any kind of language activity. Another helpful resource—a list of common prefixes, suffixes, and word roots—follows this introduction. Understanding the parts of a word gives you clues about its definition, and this can help you when you take tests, write reports, or make speeches.

Make a Commitment

Success does not come without effort. Make the commitment to improve your verbal skills. A rich vocabulary is both a great asset and a great joy. When you have an extensive vocabulary, you can provide precise, vivid descriptions; you can speak more fluently and with more confidence; you can understand more of what you read; and you can read more sophisticated texts. A good vocabulary can enrich your personal life, help you achieve academic success, and give you an edge over others in the workplace. You can truly gain the proverbial verbal advantage.

1001 VOCABULARY & SPELLING QUESTIONS

SECTION

Synonyms, Antonyms, Verbal Classification, and Analogies

HIS SECTION CONSISTS of five chapters of different types of vocabulary questions. Questions vary from finding similar words to finding dissimilar words, from identifying analogies, to identifying the three words that are similar within a group of four words.

Most standardized tests use synonym and antonym questions to test verbal skills. The first chapter in this section is on synonyms. A synonym is a word that means the same or nearly the same as another word. You will be asked to find synonyms, or choose the word that has the same or nearly the same meaning. In Chapter 2, you will identify antonyms, or words that are most nearly the opposite of the word in italics. The questions in Chapter 3 ask you to identify the word that is most similar or dissimilar to another word, effectively testing your knowledge of two words. Chapter 4 tests your ability to identify groups of word as similar to one another. You do this by finding the word in the list of four that does not belong with the other three words. Finally, in Chapter 5 you are asked to identify word analogies. Analogies are comparisons. To answer an analogy question, look for a relationship between the first set of words. Then, look for a similar relationship in the second set of words. Choose the answer that best completes the comparison.

Choose the synonym for each of the words in italics.

SECTION

Vocabulary in Context

HE FOUR CHAPTERS in this section test your skills in identifying vocabulary in context. By using the sentences provided, you will figure out which answer choice best fills each blank. In Chapter 6 you are provided with a sentence that gives you clues to finding the appropriate word or phrase. In Chapter 7 you are provided with reading passages that offer clues to finding the correct answer. For each passage, you will be asked a few reading comprehension questions. In Chapter 8 you will replace a common word or phrase with a more descriptive one that has the same or a very similar meaning. This is called identifying synonyms in context. Finally, in Chapter 9, you will be given a pair of words to choose from in order to best complete the sentences provided.
